

TERRE HAUTE AIR FAIR 2007
DETAILED FACT SHEET

WHAT: Action-packed air show

WHEN: Saturday and Sunday, September 15, 16. Gates open at 10. Flying begins at noon.

WHERE: Terre Haute International Airport—Hulman Field. The main parking areas are on the west side of the airport, south of State Road 42. Exit I-70 at State Road 46 North (Exit 11) and follow the signs to the Air Fair.

WHO:

Some Key Acts to look for:

- **Starfighters F-104 Demo Team**
The world's fastest air show team. Starfighters made history April 17th by becoming the first civilian company to operate from NASA's Kennedy Space Center.
- **Les & Scott Shockley –Shockwave Jet Truck**
Performance you ask? The ShockWave Jet Truck runs over 300 mph racing airplanes; holds the world record in a quarter mile for trucks at 256 mph in just 6.36 seconds; and holds the world record for full size trucks at 376 mph. At 36,000 horsepower, the ShockWave has enough power to accelerate at 3 Gs vertical, which is as much as the Space Shuttle!
- **Otto the Helicopter**
John Mohr, Otto the Helicopter and stuntman, Todd Green, combine to make the Untied Team. They perform an in-air Stearman-to-helicopter transfer, with the most exciting part coming after Todd moves onto Otto and does his dramatic aerobatic maneuvers while holding onto Otto's rail.

Performers to include the following:

- **US Navy East Coast F/A-18C Hornet Demo Team**
The 2007 East Coast F/A-18C Hornet Demo Team is proud to represent the United States Navy and Marine Corps. The Hornet is the nation's first true strike-fighter capable aircraft and was designed for traditional strike aircraft missions without compromising its fighter capabilities.
- **US Air Force West Coast F-15C Eagle Demo Team**
The Eagle's air superiority is achieved through a mixture of unprecedented maneuverability and acceleration, range, weapons and avionics. It can penetrate enemy defense and outperform and outfight any current enemy aircraft.
- **Chris Rounds' Red Knight T-33 with a Heroes Salute**
The dawn of the jet age in the late 1940s heralded the need to train pilots for jet aircraft. Jets flew faster and higher, and their powerplants operated far differently than their piston-engined predecessors. Thus came to be the T-33, otherwise known as the Red Knight, now piloted by Chris Rounds.
- **Gene Soucy & Teresa Stokes Airshows and Wingwalking**
Gene Soucy has done it all and everything in between. This 3-time US National Aerobatic Champion has flown almost every variety of aircraft in almost every way imaginable. You can never go wrong seeing Gene because you not only get his world class routine, you also get the amazing wingwalking act of Teresa Stokes.

- **Skip Stewart – The Pitts Special Aerobatics**
This superstar of aerobatic pilot's unique style of showmanship has earned him several gold medals in regional aerobatics competitions thanks to his high energy aerobatics and moto sky-fly.
- **Steve & Suzanne Oliver in the Oregon Aero Skydancer**
Steve and Suzanne are recognized worldwide as the only husband-and-wife professional aerobatic and skywriting team. Legends of flight in their own time, they thrill audiences with their classic aerobatic show, night-time pyrobatic performance, and Suzanne's feats as the nation's only active female professional skywriter.
- **Rich's Incredible Pyro**
With the World's Largest Wall of Fire – and plans to break their own world record at this year's Terre Haute Air Fair – Rich's Incredible Pyro has added an "explosive" dimension to modern military and World War II simulated attacks at air shows throughout the United States and, in fact, the world.
- **Matt Younkin & Kyle Franklin**
For years they've amazed and amused audiences at air shows with their high-flying transfers, stunts and comedy routines.
- **Pete McLeod**
As a competition and air show demonstration pilot, Pete's rock n' roll style of aerobatics highlights his exacting flight precision with an array of complex and visually dynamic maneuvers.
- **The "Flying Elvi"**
The "Flying ELVI" (you may know them as E-Team) is a ten member skydiving team first featured in the fun filled hit movie "Honeymoon in Vegas." They combine a spine tingling aerial skydiving performance of smoke trails, pyrotechnic fireworks, and precision maneuvers with an over-the-top entertaining stage show – all while dressed up as Elvis.
- **DAV Special Delivery B-25**
The North American B25 was among the famous twin engine medium bombers used during World War II – and achieved worldwide fame on April 18, 1942. Sixteen B-25's, under the command of Lt. Col. James Doolittle, were launched from the aircraft carrier Hornet in a daring raid on five Japanese cities including Tokyo, Osaka, Yokohama, Nagoya, and Kobe.
- **World Stunts Freestyle Motocross**
See Cody Elkins perform the "Moto Sky-Fly" over a moving airplane piloted by Skip Stewart.
- **Freeride Frenzy Extreme Team**
4 BMX riders and 1 skateboarder performing a frenzy of activity up to 3 times per day.
- **Monster Truck Ride**
Thrill seekers can feel the power with rides for fans throughout the air show.
- **Dock Dogs**
Too amazing for two legs. Watch as these canine crazies take flight from the dock in an effort to push the limits of gravity, best each other, and get a scratch behind the ears.
- **Joe Diffie and Aaron Tippin**
Headlining our concert at night, which is free with admission, will be two of Country Music's favorite names. Be sure to check them out along with the night time pyrobatics that will blow you away (if you'll pardon the pun).

HOW: Advance-sale, discounted tickets available Wednesday, August 15 at any Old National Banking Center or online at www.terrehauteairfair.com. Tickets are \$12 in advance for adults and \$15 at the gate. Children 4-12 are \$5, and 3 and under are free.

EXTRAS:

- No coolers allowed, but local vendors will sell concessions at good prices.
- It's recommended that people bring lawn chairs.

Terre Haute Air Fair flies in this September

Acts slated to make air show fly higher than ever

Spectators should enjoy cool temperatures as they watch Terre Haute Air Fair 2007, set to take flight September 15 and 16 at Terre Haute International Airport—Hulman Field. Planners of the event have pulled out all the stops, booking top acts in the air and on the ground. Capping off the Saturday performance will be a concert included in the cost of admission featuring amazing entertainers like Joe Diffy and Aaron Tippin.

The top stuntwoman-wingwalker in the world, Teresa Stokes, will perform with stunt pilot, Gene Soucy and the Showcat, taking your breath away as she literally walks along the edge of danger. Teresa has been wingwalking on Soucy's Showcat since 1988 and has been creating art inspired by the aircraft she performs on for years. She says it is an inspirational way of experiencing her artistic subject matter, and loves the thrill of every flight. Teresa has over 1500 hours of pilot time with ratings of commercial, instrument, multi-engine and aerobatic pilot.

Steve and Suzanne Oliver will leave messages among the clouds with their skywriting plane and other popular aerobatics pilots looping crazily overhead will include Chris Rounds and his T-33 (more popularly known as the Red Knight), Jurgis Kairys Aerobatics, Matt Younkin and Kyle Franklin.

Fans of military jets will also be in for a treat as the US Air Force F-15 Eagle and US Navy F-18 Hornet Demo Teams soar through the sky. Other military jets are not yet confirmed but will join the show.

Entertainment on the ground will be equally turbulent starting with the World's Largest Wall of Fire performed by Rich's Incredible Pyro. They've added an "explosive" dimension to modern military and World War II simulated attacks at air shows throughout the United States and, in fact, the world. This husband and wife team, along with their very experienced crew, create "booms" and "fireballs" you will see, hear, and, most spectacularly, feel. They even won the prestigious 2003 ICAS Art Scholl Showmanship Award.

8/20/07 11:24 AM

World Stunts freestyle motocross team will fly without wings. Your heart will skip when Cody Elkins performs his famous Moto Sky Fly by jumping over a moving airplane, piloted by Skip Stewart.

A ground show too amazing for two legs is Dock Dogs. Watch as these canine crazies take flight from the dock in an effort to push the limits of gravity, best each other, and get a scratch behind the ears.

And, of course, you won't want to miss the Freeride Frenzy X-Treme Team.

This air show will be more than a spectator event as midway rides, helicopter and monster truck rides will be available at an extra charge.

Tickets for the Air Fair will go on sale mid-August and will be available at Terre Haute International Airport—Hulman Field and at any Old National Banking Center. They may also be purchased online at www.terrehauteairfair.com. Advance-sale tickets for adults are \$12, while they will be \$15 at the gate. Tickets for children ages 4 through 12 are \$5, both in advance and at the gate. Children 3 and under are admitted free.

Again this year, all food vendors will be local and will provide good, quality variety at reasonable prices. Personal coolers will not be permitted on site.

Spectators are encouraged to bring lawn chairs or blankets for more comfortable lawn seating. Upgrade seats are available for adults at \$10 extra and for kids at \$5 extra. Parking is free.

For all the latest details and to find out about other performers, fly over to www.terrehauteairfair.com or call (812) 877-4100.
